Training & Placement Brochure

Empowering Skills. Enabling Careers. Shaping Futures.

Vision

To Transform Editing, Graphic Designing and Colour Grading into Celebrated Artforms, executed with Creativity, Precision and Global Standards.

Mission

The Aim is to Train Students through a Practical and On-Field Learning Model, Offering Real-Time Exposure, Professional Guidance and Industry-led Techniques that prepare them for the Competitive Creative World.

Aim

Our Aim is to Produce Editors, Designers and Colour Technicians who can Think, Create and Deliver from the Perspective of Directors and Clients. We want to Create Professionals who Understand Creative Intent, Story Flow, Brand Needs and Visual Communication to deliver Work that actually stands out.

Why Choose Us?

- We bring a 100% Practical Approach in Training, wherein Learning goes beyond Theory and into Actually Executing in the Industry.
- The Students Learn Directly from Top Professionals on the Field, including Editors, Designers, Colourists, Cinematographers, Directors and Ad Creators.
- Real-life experience through Hands-on Involvement in Current Industry Projects offers Students the Opportunity to Apply what they Learn Immediately.
- With Strong Industry Relationships, we have Assured Job Placements even before Course Completion and this is a Promise Backed by Confidence in the Quality of our Training.
- Our Curriculum Adapts to the Ever-Evolving Creative Industry, ensuring Students stay Relevant, Skilled and Future-Ready.

Courses Offered

Video Editing: The Course on Video Editing is built upon Real-Time Industry workflow guided by Professional Editors with Vast On-Field Experiences. This also makes Students a part of the Ongoing Film, Ad and Digital Projects, gaining Hands-on Exposure.
